Shipping levels and rules

We provide shipping services at three levels:

1. Regular mail service (Basic)
2. Tracked mail service (Tracked)
3. Express service (Express)

When creating an order, you may request a minimum shipping level that we should use to fulfill your order. We may bump your order up to a higher shipping level when one (or more) of the following conditions are true:

- Basic shipping is bumped to Tracked when the destination country is outside of the EU, Norway, Switzerland, United Kingdom or United States.
- A shipment will be bumped to level Express when the total value equals or exceeds 80 euros.
- A shipment will be bumped to level Express when the total weight equals or exceeds 500 grams.

Prices

Printeers will invoice prices based on the shipment level used to fulfill the order. If the used shipment level was higher than the requested shipment level, Partner will be invoiced for the higher shipment level.

Prices for basic and tracked shipments are based on the total weight of the shipment. This includes the weight of the outer packaging (i.e. envelope / cardboard box) that we use to send the order.

Peak surcharges

During periods of high demand, notably around Christmas and other peak times, our carriers may impose additional surcharges. In accordance with our contractual obligations and in the spirit of maintaining transparency, we hereby reserve the right to pass these surcharges onto the Partner. We will endeavor to notify affected parties at least five (5) working days prior to the application of any

such surcharges, allowing for necessary adjustments. This policy is subject to change in response to carrier pricing adjustments and market conditions.

Transit times

Transit time is indicated in workdays and does not include delays due to external factors such as extreme weather conditions and local strikes.
